PROFESSIONAL SUMMARY

I am a self-taught programmer and my educational experience includes a recently completed engineering degree (mechanical) which contributed greatly to my development of skills such as software development and teamwork. During my final year project, I worked on developing control system for Quadcopter, C++ was chosen to program the Arduino board. After graduating, I focused more on writing software rather than designing control systems. Thus, I have completed web development bootcamp course. At the end of this course, I have built smart-website that can detect face in any picture and deploy the website on Heroku cloud platform. I consider myself an adaptable and efficient team player with excellent communication and delivery at all levels.

CORE QUALIFICATIONS

- Strong proficiency with Microsoft office; including Word and Excel.
- Front-end : HTML/Javascripts/CSS3/Bootstrap
- Backend : Node.js
- Database: PostgreSQL.
- Good knowledge with JS front end framework "Reactjs"
- Able to work independently and also as part of a team.
- Sound oral and written communication skills (English&Arabic).
- Exceptional scheduling flexibility.
- Excellent customer service abilities

PROJECT

Building smart-Web / September-2019-Octobor 2019

- Created front-end components with HTML/CSS and used JS front end framework "Reactjs"
- Created backend server by Node.js
- Created database by PostgreSQL
- Used machine learning API(Clarifai) for face detection
- Deployed the website on Heroku cloud platform

VOLUNTEERING EXPERIENCE

Youth of Hope society
Event organizer
Sep2016-Sep2017

- Review event bills for accuracy, and approve payment.
- Arrange the availability of audio-visual equipment, transportation, displays, and other event needs.
- Maintain records of event aspects, including financial details.
- Organize registration of event participants.
- Hire, train, and supervise volunteers and support staff required for events.
- Develop event topics and choose featured speakers.

ADDITIONAL INFO

- University of Sunderland – 2018 **Bachelor Of Engineering**: Mechanical Engineering(second class honours)

- IELTS : 6.5 / 9

- Member of Kuwait society of engineers
